TECHNOPAC®
THINKING BEYOND BOUNDARIES

A leading Indian packaging brand.

Technopac was founded in 1998 and is based in Coimbatore. For 25+ years we have built automation, processing, packaging, and special-purpose machines that leading brands run every day.

1998	25+	2,00,000+	10+
FOUNDED IN COIMBATORE	YEARS OF EXPERIENCE	INSTALLATIONS	COUNTRIES

THE COMPANY

Trusted for high-quality machines that are versatile and flexible. Known for production speed, accuracy, and output that stays consistent. Support runs from the first consultation through to after-sales service.

Headquarters and manufacturing are in Coimbatore, with offices across India. Exports reach the Middle East, Sri Lanka, Malaysia, Singapore, Ghana, Albania, and Kenya, and the list is still growing.

WHAT WE DO

- Industrial robotics, automation, and integration
- Special-purpose machines
- Packaging and food-processing automation
- Food, pharma, and chemical processing and packing

Some of our clients:

Nestlé · Britannia (Eat Healthy, Think Better) · ITC Limited · Reliance Industries Limited · Amul · aavin · milma · Nandini · Mother Dairy · RKG · Biocon · Himalaya Herbal Healthcare · Unigen · Glenmark · Kottakkal Arya Vaidya Sala Erode · SKM Siddha and Ayurveda · P&G · TVS · इसरो ISRO · The Ramco Cements Limited RAMCO · TEAL A TATA Enterprise · Defence Food Research Laboratory (DFRL) · murugappa

What we can do for you

Share the product and the pack. We recommend the machine, prepare a quotation, build it, install it, train your team, and stay for spares and service.

TECHNOPAC®
THINKING BEYOND BOUNDARIES

How a machine gets chosen.

WHERE THE MACHINES GO

Food | Dairy | Pharma | Chemical | FMCG | Automotive

One machine, or a full line. The work starts with your product and ends with the line running, plus training and later service.

WHAT WORKING WITH US LOOKS LIKE

1. You share the product
Name, pack, weight, and how many packs you need.

2. We recommend
A machine from our range, or one built for the job.

3. We build and try
The machine is made and checked before it leaves.

4. We install
On your line, with training, spares, and later service.

OFFICES

Factory: Sf. No. 10/2B, V.K.V. Kumaraguru Nagar, Saravanampatti, Coimbatore 641035. Offices in Hyderabad and Mysuru. Partner desks in Sri Lanka, Kenya, China, and Hong Kong.

How we help you select a machine

To recommend a suitable machine and prepare a quotation, please share:

- Product name and a brief description
- Packing format: pouch, bottle, jar, bag, tray, or carton
- Pack weight or volume, and pouch or bag size, if you have it
- Output you need, per minute, hour, or day
- How the product behaves: powder, granule, liquid, paste, oily, sticky, fragile, or dusty
- Preferred machine material, if you have one in mind
- Photos or a short video of the product and the current pack

If a size or a detail is missing, send what you know. We will ask for the rest.

Send these details. We will reply with a machine and a quotation.
Monday to Saturday, 9:00 a.m. to 7:00 p.m.

TECHNOPAC®
THINKING BEYOND BOUNDARIES

Machines by the job they do.

Grouped by the work on your line, with the purpose of each machine.

PREPARING FOOD AND INGREDIENTS

Blender	Mixes ingredients into an even blend
Dryer	Dries product to the moisture you need
Fryer	Fries in a controlled batch
Mixer	Mixes powders, granules, or pastes
Sigma mixer	Mixes heavy doughs and pastes
Silo	Stores bulk material before packing
Pulveriser	Grinds material to a fine powder
Roaster	Roasts grains, nuts, and spices
Juice processing unit	Extracts and prepares juice
Destoner	Removes stones from grain and pulses
Grading machine	Sorts product by size
Mixing tank	Mixes and holds liquids
Sifter	Separates fine and coarse particles
Vegetable-cutting machine	Cuts vegetables to a set size

LABELS, CARTONS, AND DISPATCH

Labelling machine	Applies labels on packs
Taping machine	Tapes cartons closed
Shrink tunnel	Shrinks film tight around a pack
Shrink-wrap machine	Wraps a pack in shrink film
L-sealer	Seals film around a product
Stretch wrapper	Wraps a pallet for dispatch
Secondary packing	Places packs into cartons or cases
Batch coding and serialisation	Prints the batch code on each pack

MOVING AND CHECKING THE LINE

Pick and place	Moves a product to the next point
Robotic arms	Handle products on the line
Palletising	Stacks cases onto a pallet
De-palletising	Takes cases off a pallet
Robotic cartoning	Loads products into cartons
Vision camera	Checks the pack with a camera

WATER AND CLEAN HANDLING

RO water unit	Cleans water used in the process
UV tunnel	Passes product under UV light

FILLING THE PACK

Pouch packing	Fills and seals pouches
Bottle packing	Fills bottles
Bagging machine	Fills and closes bags
Capping machine	Fits caps on bottles and jars
Inter-capping	Seals the foil under the cap
Tray sealer	Seals a film lid onto trays
Web sealer	Seals a continuous film web
Rotary filling	Fills many containers on a turning line

PHARMA AND MEASURED DOSES

Capsule polishing and sorting	Cleans and sorts capsules
Blister-pack leak tester	Finds blister packs that leak
Powder sampling	Takes a sample from a powder batch
Vial crimping / de-capping	Seals or opens vial caps
Syringe assembly	Puts syringe parts together
Dosage dispensing	Measures and releases a set dose

RUNNING THE LINE

Collaborative robots	Work beside people in a clean area
Robotic inspection	Checks quality on the line
Robotic filling	Fills containers with a robot
SCADA monitoring	Shows how the line is running
Recipe management	Stores the settings for each product
Control panel and PLC	Starts, stops, and runs the machine
Weighing and dispensing	Weighs and releases ingredients

Send the product and the pack.

A photo is enough to start. We will tell you which machine fits.
